

# Productmanager for Industrial Microwave Technology and Microwave- based Plasma Applications (m/f/d)

Permanent position, starting as soon as possible.

---

At MUEGGE everything is energy: plasma systems that grow diamonds in the laboratory, microwave generators and plasma sources that help shape the future of green hydrogen. Our components and systems support innovations in the food and semiconductor industries, lab-grown diamonds and power-to-x applications. Do you want to be part of the team that is accelerating the future?

In our collegial atmosphere, every molecule plays a role: We focus on ideas, collaborative exchange and energetic support in a family environment. A workplace that gives you energy, every day – let's bring power to your career.

# Productmanager for Industrial Microwave Technology and Microwave-based Plasma Applications (m/f/d)

---

## YOUR RESPONSIBILITIES

- Take full strategic and operational responsibility for the development, enhancement, and positioning of products in the field of plasma and microwave technology.
- Monitor market trends and identify customer needs to generate innovative product ideas and plan their implementation.
- Work closely with R&D, production, sales, and marketing teams to drive successful product development.
- Develop detailed product roadmaps and specifications, ensuring clear communication across the company.
- Manage the entire product lifecycle, from initial concept through to market launch and beyond.
- Conduct competitor analyses and develop strategies for the successful market positioning of our products.
- Actively support product marketing, develop key selling points, and participate in customer presentations.

## YOUR PROFILE

- A degree in engineering, physics, business administration, or a related field.
- Several years of experience in product management, ideally within the plasma or microwave technology sector.
- Strong analytical thinking with the ability to develop comprehensive, long-term product strategies.
- Excellent communication and team skills with the ability to clearly explain complex technical concepts.
- Independent, goal-oriented work style, with the ability to manage multiple projects simultaneously.
- Willingness to travel occasionally, including internationally.

## OUR OFFER

We offer you exciting and challenging tasks in a successful, medium-sized company with cutting-edge technologies. You can expect a dynamic work environment in a friendly team and diverse opportunities for personal and professional development as well as long-term prospects. In addition to an attractive salary, we also provide comprehensive benefits such as:

- Free parking and charging stations for electric vehicles
- 30 days of vacation
- Option to work remotely
- Open door policy
- Accident insurance and company pension plan
- Annual health check-up
- Fuel vouchers
- Company bicycle program ("Job Rad")
